10:20	Skits and Speeches.
10:40	Prizes for Competitions and Distribution of Trophies.
10:50	Address of the Chief Guest.
11:00	National Anthem.

Honorable Chief Guest, Ladies & Gentlemen,

In our day to day life we go through moments of happiness, stress and strain. These days we have been through promotions, admissions, 1st Parents' Day, dust storms, heat waves, power failures, water crisis and finally today, by the Grace of God Almighty, we are able to celebrate this happy occasion of the Fifth Annual Academics Day. This is a day of great joy for all of us at St. Francis', for we all worked hard to achieve it.

To share our happiness we have with us Dr. Riaz Anwar Khan as our Chief Guest. Dr. Riaz, we are grateful to you for accepting our invitation cancelling your other engagements. Today, my heart is filled with joy to see one of my old students being the chief guest. I recall the days when Riaz was in classes 8,9 & 10 in St. Mary's working with me to improve various activities of the school. With his friends, he helped me to setup a library in 1974 in the school and then to organize the 1st Annual Athletic Sports Meet. Riaz was hardworking, obedient, loyal, respectful and honest. God blessed him for these virtues right throughout his studies. After his M.B.B.S. he went for his postgraduate studies in the United Kingdom where he specialized in heart surgery. I am proud to say that he is the 1st heart surgeon we have from St. Mary's. many more followed later. He has a licence to work in hospitals in U.K and he keeps abreast of the latest techniques in Cardiac Surgery by working in these hospitals every summer. He received the Masters Degree in Surgery in the University of Glasgow and Fellowships from the Royal colleges of Surgeons from Dublin and Glasgow.

Dr. Riaz, I wish you God's blessings to keep on climbing the ladder of success and at the same time may I remind you your own words to me: "As a doctor, I will serve the poor." I am glad to mention that Dr. Riaz keeps to his words--he takes his rounds of the patients in the hospital even at late hours of the night and helps the poor patients that visit him.

Dear Parents, on this happy occasion, I take the opportunity to share with you our motives, objectives and aspirations. I have talked about various issues previously, but one theme has been my foremost priority and that is academic excellence.

Academic excellence is not possible unless there is harmony, understanding and cooperation among the students, parents and teachers. Of all the three, I consider teachers as the most dynamic and influential vertex of the Parents/Teachers/Students triangle. Teachers are the role models for their pupils. It has been widely observed that the students idealize and try to replicate their teachers more than their parents. So the teachers play the most vital part in chiselling the character and shaping the career of a student. Look around yourself and you'll see potential scientists, doctors, engineers, planners, economists, diplomats and politicians of

but today, their teachers are playing the lead role, vitalizing them to reach the ultimate heights. When you admire a successful professional today, don't forget to praise his teachers at Nursery & Primary level who taught him 10--15 years back and played their part well in his voyage to excellence.

We strongly believe in the importance of dedicated loyal and hardworking teachers at all levels. We choose our staff with great care and then train them to be true professional, qualified, dedicated, loyal, hardworking and meticulous. Qualified does not mean only paper qualification. We don't need Ph.D's to teach in a high school. The major qualifications we look for is B.Ed and the ability to impart knowledge to the students. We have seen even the qualified unable to teach in classrooms of a high school!! We do not employ retired professors, lecturers but believe in fresh candidates or with some experience of teaching. These we can mould into "Good" teachers. During this course, if any of them do not come up to our criteria, we bid them farewell. We have to do this, because we believe in excellence through evolution. Still, if you find some inaccuracies or mistakes, please don't hesitate to bring them to our notice. Though very meticulous, our teachers are humans after all, and we are apt to commit unintentional mistakes. We always welcome positive and constructive criticism, but we never advocate it, if it is destructive or personal.

In our endeavor to accomplish the motive of excellence, we make sure that we do not over crowd our classrooms or over burden our teachers. In contrast to over packed classrooms of 40s and 50s in some reputed schools, we do not keep more than 30 in one class, which is a suitable number to keep the atmosphere calm and conducive. While taking admissions for the new session, I accepted only 60% applicants after tests. I could have admitted all those who applied but did not want to compromise on the standards we have set. Though it might have aroused displeasure among those who were rejected, but in the longer run, it is going to be propitious towards those, who we cater to.

On this day of great joy, I am glad to announce yet another plan we had for the year 2001. We shall soon start construction of a fully equipped Computer Laboratory, which will be functional from the next Academic Year. As promised by many of you, we hope that you will start sending your contributions towards the fulfillment of this project.

I thank the members of the Staff for their missionary spirit and the students for being studious, obedient and well behaved. Once again, I thank our Chief Guest for gracing this occasion with his presence. Dr. Riaz, we hope that you will enjoy the time you spend with us.

Thank you ladies and gentlemen for your presence & making this day another memorable event in the history of St. Francis.
