| 11:30 | Prizes for Competitions and Distribution of Trophies. |
| 11:45 | Address of the Chief Guest. |
| 12:00 | National Anthem. |

The Principal's Address

Mr. Zubair Asghar Qureshi, GM, FATA Development Authority, honourable guests & parents, members of the faculty and my dear students, I am grateful to God Almighty for bringing us together on this occasion to celebrate and acclaim the academic excellence and achievement of our students which they have earned over the academic year 2010 - 2011. Certainly, it is a very important event for the students who receive the appreciation for their hard work in form of trophies and certificates, and for their proud parents who feel honoured as their children come up on the stage and receive their awards.

However, it should not cause disappointment to those who can't make it up to the stage today. It should rather be an inspiration for them to take it as a challenge and to work harder next time. And surely you all know that hard work is the only key to excellence and there is no short cut to success. Though I feel happy for those who receive their trophies amid applause, I am more concerned about those who lagged behind. They must realize that they have to work harder than before, against all odds, and they will achieve guaranteed success. The evidence of my assertion is sitting among you today as the Chief Guest.

Mr. Zubair Asghar Qureshi, my former student in St. Mary's High School, a young and motivated bureaucrat, holds degrees in Civil Engineering, Nuclear Engineering, Economics, Business Administration, Human Rights Law and Urban Planning Studies. In a short span of time, he proved himself to be a highly motivated hardworking officer and served on various key posts in federal government. Looking at his profile, I was amazed to see the versatility of his responsibilities. Just to mention a few, he worked on atomic reactors in Pakistan Atomic Energy Commission, coordinated the development of industries in Ministry of Industries and Investment, planned and executed cultural activities at the

Ministry of Culture, implemented reconstruction and rehabilitation programmes of the Provincial Rehabilitation and Reconstruction Authority, and at present, he is responsible for planning and monitoring of development schemes in FATA as the GM Planning in Fata Development Authority. Of course we will see him doing much more for the nation in the years to come. No doubt such an academic and professional career is a rare phenomenon but the most astounding part of this chronicle happened in St. Mary's in early 80s. When Zubair Joined St. Mary's in Class 7, it was the beginning of his schooling.

He had no formal schooling prior to that because of perpetual relocations owing to his fathers professional commitments abroad. He had virtually missed six years of schooling but he took it as a challenge. In one year, he worked hard enough to make up for that deficiency and the next three years, classes 8, 9 and 10, he was always among the top three position holders in the class. His success in school and later in his professional studies and civil service had been possible because of unending struggle and faith in hard work.

Dear parents, as I said earlier, I am more concerned about those who face challenges and difficulties. I myself and the members of our teaching staff are always there to guide you and your children and to work together to meet these challenges and to overcome these difficulties. You have to set your priorities, aim at excellence and decide to work hard. We are there to stimulate and motivate you and to help you achieve your goals.

I am especially concerned about the newly admitted students who have joined us in primary or middle section. They have come from a variety of academic backgrounds and schooling. They may find it a little hard in the beginning to adjust to the rigorous academics and high standards we have set forth. However, with their constant effort and our persistent guidance,

they can soon go well above the border line. I strongly wish to see our newly admitted students receiving trophies next year.

Dear students, we offer a wide range of domains to prove your potential talents. Beside academic subjects, at St. Francis' you find various co-curricular and extra-curricular activities in which you can demonstrate your skills and can be a source of pride for yourself, your parents and for St. Francis'. So today, as you clap for the prize winners, you must pledge to be among the prize winners next time.

In the end, I wish to express my gratitude to all guests who are present here today. In particular, I am thankful to Mr. Zubair Asghar Qureshi. He is not only an inspiration for our young students but also a source of pride and joy for me as his teacher. I also appreciate the efforts of the students and teachers who worked hard to make our 15th Annual Academics Day a success.

Always remember: The difference between a successful person and others is not a lack of strength, not a lack of knowledge but rather a lack of will.
