- 11:30a.m ————— Prizes for Competitions and Distribution of Trophies.
- 11:45a.m ————— Address of the Chief Guest.
- 11:55a.m ————— Skits
- 12:25p.m ————— National Anthem.

20th ANNUAL ACADEMICS DAY, 2016
ADDRESS OF THE PRINCIPAL

Dr. Hassan Yaqub, Head of the Department of Ophthalmology, North West General Hospital, honourable guests, respected parents, dear teachers and students, God Almighty has blessed us with another opportunity to be together and appreciate the academic and co curricular achievements of our children. I am particularly grateful to God for helping me achieve my goals so far, and granting me the opportunity to play my role in shaping the lives of thousands of my students, one of which is among us today.

Dr. Hassan Yaqub has been my student in St. Mary's High School. He was a promising student and in Class 10, he was the chief prefect of his school. His whole life is an example of success due to hard work. He is one of the few people to have specialized in laser surgery and he is the pioneer of laser eye surgery in Peshawar. He has more than 3000 successful laser surgeries on his profile. Currently, he is busy preparing for the opening of North West Medical School, which will start admissions to the first batch of MBBS in the next few months. Such students give me pride and satisfaction in my profession.

But my satisfaction in my efforts and achievements is undermined when I foresee the bleak future of education in Pakistan, and particularly in Khyber Pakhtunkhwa. According to a report published by UNESCO, 7 million children of school going age are not enrolled in any school. Out of these, 2.5 million are in our province. The government is clueless about the solution to this problem. The situation in already existing schools is deplorable. 9% of government primary schools do not have a blackboard, 24% do not have textbooks available for the children, 46% do not have desks for the students and 64 % of the government primary schools in the country are without electricity. Surprisingly still, the government claims that each child in government schools costs Rs.4600/- per month, on average. Now compare it with the standard and facilities

offered by private schools. It should be an eye opener for all of us here!

Private educational institutes are providing all the necessary facilities at the most affordable cost, sharing the burden of the government and saving it from further disgrace in the international community. At present, around 5 million students are studying in more than 25000 schools only in our province. It's a pity that instead of appreciating the role of private sector, the government is trying to corner us in every possible way. Upon the directives of so called unseen hand, pressure from the parents, and mostly out of arrogance, the government is trying to take full control of the private schools to the extent of making decisions about textbooks, yearly planning, holidays, hiring and firing of teachers and almost every domain for that matter. It's so embarrassing to even mention that any non-compliance to their orders will result in arrest of the principal. Can anyone even imagine such a law in a civilized society? The rest of the world considers teachers as the most respectable people of the society and that is why, they are far ahead of us in education and development. The governments of developed countries acknowledge the role of private sector and appreciate their efforts. All over the world, the private schools are preferred because they can set standards independently without the control of the government. In Germany, for example, the rights and privileges of private schools cannot be suspended, even in the state of emergency. In the United States, private schools are generally exempt from most educational regulations at the federal level. In Sri Lanka, the top most private schools are given monetary aid by the government. In UK, private schools are considered to be the best and the government does not interfere in their matters. Here, in our province, the government wants to bring the private schools down and at par with government schools. We have decided to resist every such move, and we expect your understanding and cooperation in this regard. It is a matter of the future of our generations, and we will never compromise on this.

Parents have always trusted and appreciated our efforts and their cooperation has played a great role in making St. Francis' what it is today. However, I want to express my disappointment with those few parents who try to create hindrances in smooth running of school, only to get meagre financial benefit. Yes, there are some parents who probably consider other things more important than the education of their children. Instead of budgeting their income and expenditure wisely, they try to get freeship and concessions in whichever way they can. They are the ones who persuade and pressurize the government and get some sort of benefit for the time being. They do not realize that their selfishness is causing long term harm to the noble cause of education. How can we maintain a standard when we have to suffer huge losses, at one time in the name of brother-sister concession and at the other as waiver of transport fee in summers?

Dear parents, rest assured that we are providing your children better facilities than any other school charging even higher tuition fees. We need your continued cooperation in this journey towards excellence. Together, we can guarantee a promising future for our children.

I am grateful to all of you for being with us today. Thank you Dr. Hassan, once again for your presence. I appreciate all the students and teachers whose efforts made this function a success.

Just ponder over a brief quote in the end:
An investment in education pays the best interest.
