12:00	Prizes for Competitions and Distribution of Trophies.
12:20	Address of the Chief Guest.
12:25	Skits.
12:40	National Anthem.

Respected Muhammad Abid Majeed, Deputy Secretary Administration, Ladies and Gentlemen and my dear Teachers & Students,

I am pleased to address you all on this Annual Academics Day. Thanks be to God Almighty, we have been able to hold this function consecutively for nine years. A lot of effort on part of students and the teachers, as well as the parents is integrated to make this function a success. There is a year long episode of hard work and endeavour behind these couple of hours, both in curricular and co-curricular domains. It is good to see the cheerful faces of the winners and their proud parents.

Muhammad Abid Majeed, Deputy Secretary Administration, Govt. of N.W.F.P., is one of the young generation of the officers who is energetic, enthusiastic and motivated. With an inspiring academic and extra curricular background, he has all the abilities which make a thorough gentleman and an adroit bureaucrat. Keeping up the tradition of inviting my old students as Chief Guests, I am glad to have him here. He must be feeling nostalgic about his school days in early 80s, which I am sure, are full of good memories. He maintained the top academic position throughout his years of schooling. Not only that he excelled in academics, but he demonstrated his sportsmanship in the field too. He was the skipper of the Badminton team and was a member of other teams also. He also helped the administration in maintaining discipline as a prefect, bus monitor and library prefect. He also won the award for 100% attendance in class 9. All that he learnt at school has surely gone a long way to take him to the zenith where he is now, and to the stature where we expect to see him in future. You, Mr. Abid Majeed, are an ideal example of the role of good schooling in personality and career building. I hope that in future, there will be many more like you from among the students of today.

Ladies and Gentlemen, as I mentioned earlier, on the Academics days, we applaud the curricular and co-curricular achievements of our students. It is noteworthy that this year as many as 240 students, 26 teachers and 3 members of the junior staff will receive awards for different achievements. It is not only a token of appreciation for their efforts, but also a means to encourage them to keep up their efforts and to motivate others to strive for excellence. Besides these, you will see 247 different students exhibiting their talents in different presentations on this stage. All of them have united with the aim of making this day a success. You will witness a multidimensional expression of talents, all aimed to achieve one objective. Here, at St. Francis, we strive to provide an outlet for all types of talents because we advocate Unity in Diversity. All these assorted efforts are blended together to accomplish a harmonious and wholesome personality. All such efforts take us towards the norms bestowed upon us by the Father of the Nation — Unity, Faith and Discipline.

Unity—in our thought and action for achieving collective aims,
Faith—in our skills and abilities to move towards our goals,
and Discipline—in whatever we do to reach our destination.

Our efforts to inculcate discipline in the personalities of the students cannot bear fruit, unless they are augmented by the parents at home. Children should be made to study for certain hours daily, even if there is homework or not. Each and every minute of their lives should be carefully programmed. Good habits must be inculcated in them. Respect for elders, for instance, is one of the basic trainings we could develop at home.

Once a child attains the age of 4, he or she should have unity, faith and discipline embedded in his or her personality. Sometimes we give too much latitude to our children on the pretext that they are too young to be taught these traits, but the fact is that 50% of the intellect and inclinations of a child are developed from conception to 4 years of age. Therefore, dear parents, when you bring your 4 year old child for admission to Pre-Prep, you must bear in mind that you have developed 50% of mature intelligence in him or her. This fact shows a lot of responsibility on your part and diminishes that of the school. We often hear ease-loving parents speaking in terms of, "It is the responsibility of the school" Unfortunately, they fail to understand that education and training is a process that starts in the cradle and continues till grave.

From the age of 4 to 8, the child develops another 30% of his personality and from 8 to 17 years, the remaining 20% is accomplished. And so, as much of the development takes place in the first 4 years of life as in the next 13 years. Thus we are inclined to believe that these years from 4 to 17 are the most important growing period for **ACADEMIC ACHIEVEMENT**. All subsequent learning in the school is largely determined by what the child has learnt by the age of 9, or by the end of class 3.

Dear parents, your children are all less than 17 years of age. It's not too late. You still have time to shape up the personalities of our children. Join hands with us and let us work in **UNITY** to achieve this goal. Have **FAITH** in us for what we are doing here at St. Francis' to produce responsible citizens. Just play your part as parents to bring **DISCIPLINE** in their lives.

Let us remember these wise words: "Children are like wet cement
Whatever falls on them makes an impression".

God bless you all.
