11:50	Address of the Chief Guest.
12:00	Skits.
12:05	National Anthem.

Dear Mr. Muhammad Asad Ashraf, Director Ashraf Industries and Former District Governor Lions Club, distinguished guests, dear staff members and the students, I welcome you all to our 11th Annual Academics Day.

We have completed another fruitful year. St. Francis' High School has entered the 15th year of its existence. The seed that we sowed 14 years back has now turned into a fruit bearing tree with firm roots, which is providing fresh breeze and cool shelter. The St. Francis' Family has nurtured this tree with utmost care during all these years and we feel gratified to see its fruit in the form of our students doing well socially and professionally. St. Francis' is firmly rooted in the private education sector with ample credibility and eminence. The grooming and evolution of thought of our students serves as a gust of fresh breeze for our suffocating social scenario. The members of our faculty and associate staff earn their daily bread with honest sweat to provide livelihood for their families, thus sheltering them against ever increasing financial needs. I am sure that with the grace of God Almighty, this perennial tree will stay green forever and continue to flourish and bloom for all times to come. We will keep on striving to produce successful professionals and more importantly thorough gentlemen and compassionate human beings.

One of such rare blend of professionalism and compassion is amongst us today as our guest of honor. Mr. Muhammad Asad Ashraf is not only a prominent entrepreneur in the corporate sector of NWFP but is also renowned to be a benevolent philanthropist who has been striving hard to serve the humanity from the platform of Lions Club. He is the Director Trade Finance, Ashraf Group of Industries and the District Governor of International Association of Lions Club. Asad Ashraf has won various distinctions for his activities in the club and has held key offices since 1998. You will get to know more about his activities and of Lions Club when he speaks to you later.

As I mentioned earlier, we do not aim at producing skilled academicians only, but we endeavour to inculcate the intrinsic human values in our students, for which the whole society is supposed to be responsible, but fails badly to do so. So the responsibility falls on the shoulders of the family and the educational institutes. Here again we face disappointment as we see stockpiles of degree holders and professionals lacking humanitarian streak. Among our contemporaries, we have bulks of successful professionals reaching the apex of careers but there is a dearth of great men. We are living in a bleak period of history. The historians of tomorrow will find it hard to reckon even a few great men of our times. To avoid this embarrassment, we shall have to take up the task of crafting great men collectively. I better not mention what is going on around us, but I can claim with surety that we are putting in our best efforts for this purpose. Rising up to our obligation, we teach our students to compete with conviction and honesty whether it's the sports ground or the examination hall. We teach them that it is better to lose with integrity, than to succeed with treachery. We do our utmost to develop in them the social responsibility. We try to make them realize that God Almighty has sent each one with a purpose, and being a doctor, an engineer, a businessman alone does not serve the purpose of their creation, and they need to be thorough human beings to join hands with God and to make this world a better place to live. We teach them that humanity is above cast, colour or creed.

Dear parents, the school alone cannot achieve this goal. I have reminded you time and again about your responsibilities in parenting and I take this opportunity to prompt you once again on this issue. No doubt you are doing a great job by providing your children the best available facilities for comfortable living and quality education, but ask yourself some questions. Is that just it? Aren't you supposed to do a lot more than this? Isn't it your religious and moral duty to help your children become ideal human beings? Aren't you equally responsible as we are for character building of your children? Certainly yes! And

the best way to respond positively to these questions is to be a role model for them. Do not just teach them, but demonstrate to them what you want them to be. Do not just set the goals for them, but show them the righteous path to reach those goals. Do not just arrange tutors for them to make them pass the exams, but teach them moral and human values which are needed to succeed in the test of life. I hope that you all will join hands with us, so that our children of today are ranked as great personalities in the books of tomorrow. I am sure that together we can bring about a great change.

I am grateful to you all who took time out to be here today. In particular, I acknowledge Mr. Asad Ashraf for his presence. Students like him are a source of contentment and pride for the teachers and their presence is gratifying. I wish to congratulate the award winning students and their parents. I also appreciate the efforts of all those students and teachers who worked hard as a team to make this function successful.

Always keep this thought in mind: Wealth without work, knowledge without character, worship without sacrifice, politics without principles and science without humanity lead to the destruction of a society.

the best way to respond positively to these questions is to be a role model for them. Do not just tech them, but demonstrate to them what you want them to be. Do not just set the goals for them, but show them the righteous path to reach those goals. Do not just arrange tutors for them to make them pass the exams, but teach them moral and human values which are needed to succeed in the test of life. I hope that you all will join hands with us, so that our children of today are ranked as great personalities in the books of tomorrow. I am sure that together we can bring about a great change.

Looking Back at St. Francis'

(Umar Tawab)

It hasn't been long since I left St. Francis' but everything looks so different when I look back. It's not because things have changed much over the last few months, but my perspective has changed. I never realized enough what it meant to be a student of St. Francis' High School until I passed out.

St. Francis' High School is different from other Schools in many different ways. The very first impression is the enormity surrounded by greenery. To experience what lies within, one has to be a student of St. Francis'. As a student, I experienced and learnt so much that I would have missed out completely had I not been a Franciscian. I consider myself fortunate enough in this regard. What makes St. Francis' a great school is the teaching faculty. The teachers are competent, hard working and dedicated. They are not merely instructors, but teachers in the true sense of the word. Not only that they taught us, but also guided us at each and every step and provided counsel whenever we needed. Their approach towards teaching was completely different from the teachers of other schools. They explained everything to the ultimate detail, but we never got bored because of their pleasant way of teaching. They worked very hard with us, just like a farmer does to his harvest as he sows the seeds, waters them, and nurtures them just to see them rising tall and bearing fruit.

As the students of St. Francis', we had a very busy schedule round the academic year. The first term was marked with new courses and new classes. The second term used to be the busiest with two exams and two grand functions, Academics Day and Sports Meet. The third term was the most stressful of all due to the pressure of promotion tests, but Science and Culture Exhibition helped in relieving the stress to a great deal. The same routine recapped year by year, but we learnt new lessons and experienced something novel each year.

I pray to God Almighty for progress and prosperity of St. Francis'. Under the leadership of our honourable Principal, Mr. Francis Sales Fernando, I am sure to see my prayers granted and the School rising to the elevations above the skies. No doubt, he is a great man who has dedicated his whole life and all of his energies to make St. Francis' outshine all other schools. May our School become one of the greatest institutions not only in the NWFP, but the whole country.

I will always take pride in being a Franciscian.

(Umar Tawab passed his SSC Examination from St. Francis' High School in 2007 and is a student of First Year at Islamia College, Peshawar)
