18th

Annual Academics Day
2014

Dr. Syed Daud Bokhari

Director

Happy Day Nursery & School System

Will Preside & Distribute the Trophies

The Principal's Address

Dr. Syed Daud Bokhari, Director, Happy Day Nursery and School System, distinguished guests, respected parents and dear teachers & students of St. Francis' High School. Before expressing my gratitude for your presence and participation in today's function, I wish to thank God Almighty who has always showered his countless blessings on us, and who continues to bless us year by year with academic achievements and further development in St. Francis'. There are new changes day by day, year by year and lucky we are that His mighty hand makes these changes possible and turns them in our favour. Actually the whole journey through life is a series of changes some major, many minor. In order to achieve success, one has to be bold enough to bring about major changes in life when needed, and strong enough to adapt to changes when at times, they just come out of the blue. I can prove my point by introducing you to Dr. Daud Bokhari, who is our guest of honour today. Dr. Bokhari is an MBBS from KMC and M.Sc Radiology from UK. However, he has earned recognition as an educationist. He is the director of Happy Day School System who is successfully

managing a high school with a large number of students and teachers. A doctor of medicine, who changed his career in order to realize the dream of his mother; the dream of upgrading her nursery into a high school. He adapted to this change in such a manner that in a few years time, he made his mother's dream come true. Now he has his own dream of upgrading it further.

My students, who I have taught over the last four decades, are serving the nation in various spheres of life, but to see a blend of two noblest professions, medicine and education, is highly gratifying. Dr. Daud, my best wishes are with you in your aspirations. I am sure that you are dedicated and determined enough to realize your dreams.

Dear parents, as I mentioned earlier, change is inevitable. These days, our political scenario resounds with his word. Our political leaders are promising a change. People are dreaming of a change. However, only a few have the insight to realize that change cannot be imposed from the top. It has to be initiated at the grass root level. History tells us that no nation can change unless the

people of that nation are willing to change themselves. In our case too, our leaders can never bring about any change, unless we ourselves change our attitudes, thoughts, behaviours and our dreams. As a nation, we need to rise above the personal gains and think and act as one nation. This transition is only possible with education the real education, which is not just limited to getting positions and admission in colleges and universities. We need to change our attitudes and our views about success. We need to shun the evil ways and hold firm to integrity and honesty. We need to change our priorities. We need to keep the education of our children as the top-most priority, above all other issues. This can happen only when you have a firm belief that only education can guarantee a positive change and a bright future for our coming generations. At times, it really disappoints me when parents are not concerned about the education of their children. The concern is not limited only to admitting your children in a good school. It is a lot more than that. It is about helping them to be regular and punctual. It is about taking time out to meet the teachers. It is about paying their dues on time. It is about monitoring their progress and supervising their studies at home each and every day. How can we dream about, or expect for a change if we are not ready to change ourselves?

Ladies and gentlemen, it's a matter of now or never. The change is just round the corner. Those who can adapt to this change will flourish, but those who fail to meet the demands of this change will be left behind. We, at St. Francis' cherish these changes day by day. These changes are a sign of our growth, the growth of our children, the growth of this nation. We have pledged to invest all our energies, talents and financial resources to promote a change in our children, and this goal can be achieved only with your interest and cooperation.

Dear parents, your interest and cooperation are already evident from your presence here today, as you gather here with us, to celebrate the academic achievement of our children. I am immensely grateful to you for taking time out to be with us. I also wish to thank Dr. Daud Bokhari for his presence. I extend my heartfelt congratulations to those proud parents, whose children are going to receive trophies for academic excellence. Last, but not the least, I must appreciate the efforts of my staff and students who worked hard on the stage and behind the scenes for this day.

Let me share a brief thought with you:
